TREATING MASTITIS & LAMENESS?

Quicken recovery, improve long-term cure rates and reduce production loss by complementing treatment of mastitis and lameness with the use of non-steroidal anti-inflammatory drugs (NSAIDs) for pain relief.

Talk to your vet for guidance.

DOGS WITH ALLERGIES

All dogs itch sometimes, but if your dog seems to scratch excessively, it could indicate a medical condition that needs attention.

Your vet will be able to determine if the itch is due to an infection, parasites, or skin allergies.

Common signs of skin allergies in dogs include:

- Frequent scratching, licking, biting, or chewing;
- Excessive rolling, rubbing, or scooting;
- Recurrent ear problems: head shaking, ear discharge, or scratching at the ears;
- Hair loss or body odour;
- Skin changes: rash, redness, greasy skin, or scabs.

If your dog's itching persists, or if they show any of the above signs, get in touch with us.

SHAMPOOS FOR SENSITIVE SKIN

Aloveen

250ml
NOW \$37.42 INCL. GST

SPECIAL DIETS FOR PETS

10% off
 all prescription food for allergies & skin issues!

We have many prescription food options specially formulated for allergies, sensitivities and skin issues in dogs and cats.

Ask your vet whether one of these diets may suit your pet.

FREE senior pet health check with one of our vet nurses!*

A head to tail health check consult, to help identify any possible issues with your senior dog or cat. This will include dental, skin and coat, weight and mobility checks.

There are many reasons behind mobility issues in senior pets and a number of solutions, including pharmaceutical and supplement treatments, pain relief and care techniques.

Arrange a health check for your senior pet to see if you can help them to grow old gracefully!

*Offer available for small dogs over 10 years old, large dogs over 7 years old and cats over 11 years old only. Spaces are limited so booking is essential.
